Upon completion of the course of study, at a school in Taiwan, to which an international student has applied, the student's admission to another school academic level shall be handled in a manner identical to the procedures for admission for local students. However, this requirement does not apply to an international student in either of the following circumstances:
 - (a) An exception is that an application for a master's degree or higher levels of graduate studies can be processed under this regulation.
 - (b) An international student applied to come to Taiwan to undertake a bachelor's degree or lower level program in Taiwan and after coming to Taiwan stayed for less than one year for some reason then discontinued their studies or forfeited their student status, that student may lodge another application to come to Taiwan to study, but only one such re-application is permitted.

An international student who with Ministry of Education approval for an internship after their graduation from a university in Taiwan may have his or her international student status may be extended for one year at most after graduation.

During the course of study in Taiwan, international students, who have undertaken initial household registration, resident registration, naturalization or restoration of the R.O.C. nationality, will lose their international student status and shall be dismissed by the school. However, student whose application was handled in the same manner as the admission procedures for domestic students and who apply for naturalization to acquire the nationality of the ROC in accordance with Subparagraph 1 to 3, Paragraph 1, Article 4 of the Nationality Act is not subject to this requirement.

In principle, the actual number of places available for international students to be admitted is limited to an additional ten percent above TKU's admission quota approved for previous academic year by the Ministry of Education, and that number shall be incorporated into the total admission quota and reported to the Ministry of Education for approval. TKU applying to recruit more than an additional ten percent shall submit a report of the planned increment (including associated quality control strategy and supportive measures) to the Ministry of Education for approval. 6. Departments or graduate institutes that admit foreign students should formulate a set of review procedures with which to evaluate foreign student applications. These review procedures should then be submitted to TKU for future reference.

Foreign students' applications for study are processed by the Office of Academic Affairs, which assesses whether all required documents have been submitted (preliminary review). Those who pass this preliminary review will have their documents compiled and sent to the related department or graduate institute for the secondary review.

Each department / graduate institute must then select successful applicants in accordance with their individual admissions criteria and foreign student enrollment quotas. And after producing a list of successful candidates, the department / graduate institute must send the list to the Office of Academic Affairs, which will submit it to the Student Admissions Committee for confirmation. After finalizing the list of successful candidates, the names of such candidates will be released and each candidate informed.

7. International students who wish to apply for study must submit the documents listed below to the Office of Academic Affairs in the application period outlined in the Handbook. Those who pass the review process will be issued a letter of acceptance to study at TKU.

- (5) Documentary proof of personal identity and acknowledgement of educational qualifications and any other related documents.

If documents that have already been authenticated raise any doubts, the educational institution may request examination of the documents.

An international student who submits any certificate or document as part of their application for admission to TKU that is found to be forged, fabricated, or that has been altered in some way shall have their enrollment eligibility revoked. If the student has already registered and begun classes, their registration as a current student shall be cancelled and they will not be awarded any certification whatsoever regarding their related academic undertakings. If any such circumstances are first discovered after a student has already graduated, TKU shall revoke the former student's eligibility to graduate and shall require any degree already awarded to be returned and shall rescind it.
